

ANTISOCIAL BEHAVIOUR (Anytime)

One of the targets for Harrogate Police Area is to reduce the number of incidents of nuisance, antisocial behaviour and public disorder. This is a tall order, bearing in mind the finite resources at their disposal. However, if you live in an area in which there is antisocial behaviour, Neighbourhood Watch can help. By forming your own Watch with your neighbours, there would be more willing help and action from the council, the police and all those others who could help. You would also have the backing of the Harrogate Neighbourhood Watch Association which looks after over 600 Watches.

Neighbourhood Watch is a proven way of not only protecting your property but improving your quality of life and the fear of crime.
