

## **MAKE IT DIFFICULT**

(Winter)

Most burglaries are committed by opportunist thieves. In four out of ten burglaries, they do not even have to use force – they get in through an open window or insecure window or door. Have you fitted strong locks to your windows and doors?

## **LIGHT UP YOUR HOUSE**

Good exterior lights are a powerful deterrent. No dark corner around your property should be a biding place for a thief. There is such a wide range of reasonably priced sensor lights now available that you should be able to light up all round your property if someone passes the infra red sensor.

These sensor lights are also very useful when you come home in the dark. They will light up your way to the garage or door making life that little bit easier. You can now fit low energy bulbs that automatically come on when it is dark and go off when it is light. These bulbs re very cost effective despite being on during the hours of darkness. They are worth looking into.
