* For Smart Water Product info/ordering visit link on website

Within the Harrogate & District Neighbourhood Watch Association area, there are now over 800 schemes with a total of over 12,000 households covered.

Domestic burglary has reduced by 24% in the past year in our district, yet there are still substantial areas not covered and many 'hot spot' areas for burglaries and associated crimes.

Harrogate & District Neighbourhood Watch Association are pleased to present a range of products, all attractively priced, which householders can install by simple DIY to provide effective deterrents and improve personal security.

The product range will vary as demand changes and will in future incorporate new items that are requested by scheme members, so please consult our website - as below - where there is more product information and an order form - or use the simplified form on the back of this leaflet. Additionally, you can request our help in seeking technical solutions to your specific problem areas. We have a number of professional suppliers to support us in finding the best solution.
