

## **FIT SMOKE ALARMS**

Smoke is the biggest killer in domestic fires. You are six times more likely to die in a fire if you do not have an alarm fitted.

Smoke alarms should be fitted on every floor - ideally on hallway and landing ceilings.

## **MAKE A FIRE PLAN**

Make sure all the family know what to do in a fire and how to escape safely.

**THE FIRE SERVICE WILL FIT 10 YEAR SMOKE ALARMS & CARRY OUT HOME FIRE RISK ASSESSMENTS FREE OF CHARGE**

*A £10 donation towards the cost of each alarm fitted is requested. (Certain groups may qualify for free alarms).*
